Re: Facility ID # 89-0178
Permit Number: **967508P**

Dear Mr. Odom or responsible official:

The Division of Air Pollution Control is completing file reviews in an effort to ensure all required permits have been obtained and are not beyond their expiration date. During our review, it has come to our attention that construction permit number **967508P** is due to expire on **September 1, 2014**.

If this source has begun operations, please ensure all conditions of your construction permit have been met. This includes the submittal of an operating permit application, and startup certification if required. However, if startup has not occurred, it may be necessary to apply for a request to extend the expiration date.

Application form CN-0730 (APC 100) is located at (<http://www.tn.gov/environment/permits/airoper.shtml>). You now have the option of submitting your application via email to Air.Pollution.Control@tn.gov. The submittals must be signed and in PDF format.

However, if you prefer to mail your applications, please note that our Nashville office recently moved to

Tennessee Department of Environment and Conservation
Division of Air Pollution Control
15th Floor, William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue
Nashville, Tennessee 37243

Should you have any questions, feel free to contact me at (931) 432-7621 or Jeff.Cales@tn.gov. If the application process has already begun, please disregard this letter.

Sincerely,

A handwritten signature in blue ink, reading "Jeff Cales", is located below the "Sincerely," text.

Jeff Cales
Environmental Field Office Manager
